

Flower Power 58

MISSING

Flower Powers were both numbered and had the season title printed up to issue 52. This resumed at issue 74 onwards.

The seasonal sequence seems to be correct in between these issues but there are insufficient magazines to fill the *numbering* gap between 52 and 74.

It seems that by the Winter issue 1995 when numbering printed on the magazine resumed, someone may have miscounted!

If any member however, has an additional Flower Power from that period that would fill this gap, I would be very interested in seeing a copy for inclusion on the website.

I have chosen to designate No. 58 as the *missing* edition, which may of course not be missing at all!
